Our Proven Process

Understand & Align

- Listen to understand the current situation
- Learn what the care needs are
- Provide education of our industry
- Determine if we are the right fit
- If we are not the right fit, provide other resources

Assess & Collaborate

- Review & complete our Service Agreement Process
- Complete a comprehensive person-centered assessment
- Manage expectations by setting goals
- Collaborate with your current care team
- Provide introductions to other resources as indicated

Onboard

- Build an individualized person-centered care plan
- Match the caregiver team based on the assessment and care plan
- Complete the client-centered training with the care team prior to starting care
- Review the care tasks and the caregiver team with the client and/or family prior to care beginning
